

Corporate Overview

Value Proposition

Defne offers a portfolio of service and result driven solutions with the following key benefits to operators:

- **Increases Competitive Advantage:** Enhances MNOs digital transformation efforts. Enhances MNO's competitive advantage with:
 - Faster time-to market of innovative omni-channel services that enhance the richness of their offerings
 - Intelligent and automated service life cycles
 - Targeted personalized offers for precise market segments
 - Prioritization of superior customer experience
- **Drives Revenue:** Enables digital services, increases call completion and returned call rates, enhances messaging experience and enables effective marketing campaigns to improve network usage and ARPU.
- **Reduces Churn and Increases Customer Loyalty:** Offers a variety of user-friendly solutions for personalized call management and messaging. Enhances the subscribers' communications experience, increases satisfaction and reduces churn.
- **Intuitive:** It is easy-to-use and does not require comprehensive subscriber education. Reduces time-to-market effort.
- **Mass-Market Services:** Suitable for the entire subscriber base, both pre-paid and post-paid. Can also be integrated with mobile marketing services.
- **Reduces Cost of Ownership:** Cost-effective, feature rich solutions that can be combined with Defne's world-class Managed Services.

Overview

Defne is a leading global provider of telecom solutions, software products and services for communications networks. Defne's solutions enable network operators and service providers to monetize every potential connection beyond limits while enhancing subscriber experience. Backed up with professional and managed services, Defne offers a differentiated portfolio of innovative call management, messaging and notification, roaming and value-added services (VAS) products.

Mission

Today's communications market is changing faster than ever with new innovations in technology, competitive threats from OTT players, and ever-increasing demands from the subscribers. Network operators need to have the right infrastructure and services in place to let them stay ahead of competition and maximize the revenue from each subscriber.

Defne's mission is to deliver solutions that add value to network operators' growth strategies and help them to:

- **Innovate services** and unlock the potential for new revenue streams
- **Monetize revenues** faster through profitable services that meet mass and niche market segment needs
- **Exceed expectations** and increase customer loyalty through enhanced user experience

Locations

The company was established in 1996 with headquarters in Istanbul, Turkey with strong R&D team. Defne serves its global customer base through its office in Turkey.

Employees

Defne's executive team and skilled resources take pride in supporting the company's customers with innovative solutions that address their business needs and generate new revenue streams. Defne's global professional and managed services teams work around the clock as an extension to customers' business and marketing teams to ensure successful deployments and service roll-outs.

Industry Involvement

Defne is committed to following the industry's leading associations and forums for the successful development and evolution of its standards-based solutions. Defne ranked among the 500 fastest growing technology companies in EMEA and among the top 10 in Turkey by Deloitte in multiple years. Defne is an Associate Member of the GSMA organization.
